<u>Disclaimer</u>. This report is not financial advice and it is made voluntary by our team. COIN4RATING is not responsible for any error included in this report.

Issued by

c4r

The purpose of this report is to gather all the important characteristics of the cryptocurrency or token. The report is performed in the following order:

1. Basic information
2. Analysis
3. Conclusion

Note that the result of this report should be interpreted as an independent analysis, not as a signal to buy or sell an asset. Please, always DYOR.

1. Basic information

BEAM is a utility token built on the Ethereum blockchain using a Proof-of-Stake (PoS) consensus mechanism. Its primary purposes are:

- **Governance Utility**: BEAM token holders can participate in decentralized decision-making, voting on key protocol upgrades, ecosystem developments, and governance proposals.
- **Gaming Sector Focus**: BEAM is designed to integrate with blockchain-based gaming platforms, enabling in-game transactions, rewards, and asset interoperability.
- **Ecosystem Incentives**: The token is used for staking, earning rewards, and accessing premium features within gaming and decentralized applications (dApps).

Originally positioned as a governance token, BEAM has expanded its role to support play-to-earn (P2E) gaming, NFT economies, and decentralized finance (DeFi) integrations, making it a key player in the blockchain gaming ecosystem.

2. Analysis

In the following tables we will show the different areas researched, such as tech, strategy and economy.

BEAM							
Tech	**Type**	Cryptocurrency		**Token**		Others	
	Layer	0	1	**2**	3	Others	
	Blockchain	Ethereum	Cosmos	Solana	BNB Chain	Others	
	Category	Utility	Security	Stable	Meme	Others	
	Consensus	PoW	PoS	PoA	PoB	Others	
	ISO	Yes			No		
	Bug Bounty	Yes			No		
	Audits	Yes			No		
	Auto Audit (1)	0	1	2	3	4	5

*(1) The auto audit score is performed by 6 different digital audits: Certik Skynet, Quick Intel, Go Plus, Honeypot, Token Sniffer and StaySAFU through the DEXTools app

On the one hand, the tech block shows that the project is a layer 2 token with a Proof of Stake consensus protocol. This makes it efficient and scalable, thanks to its integration with Ethereum and additional technology in its nodes through Avalanche, as per the whitepaper. It also operates on the BNB Chain, adding flexibility. However, while it is a digital asset categorized as 'utility' with an audit executed by Peshow, it has not been subject to ISO certifications, and there is no bug bounty program, which prevents it from achieving a higher score in this block.

BEAM					
Strategy	**Governance**	Centralized	**Decentralized**	Others	
	Open Source	Yes		No	
	Roadmap	Yes		No	
	Partnerships	Yes		No	
	Public Team	Yes		**No**	
	Social media	Abandoned	**Active**	Others	
	CAPED (2)	0 1	**2** 3	4 5	

*(2) The CAPED score is an analysis of capitalization, trader's activity, price performance, development and engagement. This analysis was deployed initially by the Alpha Intelligence team of Hacken

On the other hand, with regard to the strategy block, the project shows strong fundamentals. It has a public team, excellent partnerships with Polygon, Pantera Capital, and Immutable, and outstanding social media engagement. The presence of a roadmap and open-source code further supports its credibility.

| BEAM					
Economy	**Supply**	**Limited**		Infinite	
	Burn	Yes		No	
	Collateral	Yes		**No**	
	Buybacks	Yes		No	
	Tokenomics (3)	0 1	2 3	**4** 5	

*(3) The tokenomics score is performed by COIN4RATING considering factors as supply, burn mechanism, distribution, vesting and possibility of staking/liquidity pools

Finally, let's look at the token economy. Knowing that the token has a limited supply and a deflationary burn strategy through buybacks, but lacks collateral, the tokenomics score reflects a high approach with a value of 4/5, indicating a solid token economy.

Overall, the analysis has been carried out satisfactorily.

3. Conclusion

The report provides a comprehensive yet concise analysis of the project's key characteristics. After thorough investigation, we confidently assess the project's performance as achieving the following rating:

A-

(*) Note: Rating is from AAA+ to C- scoring.
